

May 24th 2022, after the morning STATS 302 lecture, a good conversation with someone, the youtube channel is called Joolzmusic, the music and imageries:

To the right represents the top-down love, the father figure and the mother figure, since God the Father created love from his all-encompassing knowledge, the representation is fitting of a wife

The two children contains an older brother and a little sister playing with each other and enjoying life in innocence

Due to the serpent biting the children in Eden it breaks God's heart but the soul is too damaged and would hurt His true children, pure and innocent

That's why the serpent those who hurt innocence are cast into hell forever

That's also why pain is short but if one can hold purity of mind the reward is great

Imagine the longsuffering and the loving heart of God

It reminds me of the poem in the song of solomon where the watchmen (fallen angels) smote the woman who was sick with love, and that Christ only came here once to save His children.

In fact, I had the dream where I saw the nurturing part and it corresponded to the lungs in the meridian body clock. It was a feeling of love and tender love that was unasked for but instinctual and humiliating however. The feeling was humiliation. The symbolism made so much sense. The black star on the cheeks and the need for love to heal, the innocence of the babe in Christ

and the water hose made of gold, where gold represents power. The top left of shame but shame healed through love, and the dark hands of “archons” (fallen angels) could not reach it. “Do it again and again” represents the natural affection that would satisfy the hope of the lost soul from Jesus, but this thought is brought to His children, to finally appreciate and accept the sin nature and the need for blood atonement. This is because the soul is purified through constantly seeking out the perfect love of the husband (Jesus Christ) towards His wife and bride (song of solomon). There are some men out there who want to crucify Jesus two times, or even more to satisfy their blood lust – but God the Father is heartbroken. That is why those people will be sent to hell for eternity.

Relating to the movie Dark of the Moon, the sigma male mentality of sentinel prime where sentinel prime represents the maturity from pain meanwhile optimus represents faith and teamwork, that is why faith exceeds pain and death. Love is greater than death. Love is greater than wine, or anything that can be experienced through lust and hormones. Abraham had faith, and that faith sprouted and could tolerate and accept pain, and lastly, humiliation (optimus) and surrendering one's inability to save oneself.
